

# Global Options, Inc.

**Global Options, S-Corp Women-Owned Small Business (WOSB)**  
Architectural Hardening • NBCe Protection • Continuity Infrastructure

## Core Competencies

- **Infrastructure Hardening & Design** — Blast, ballistic, and forced-entry protection for high-value and government facilities.
- **NBCe Protection** — Full-spectrum CBRN survivability systems: filtration, overpressure, decontamination architecture.
- **Continuity & Resilience Planning** — COOP and command-node facility design for defense and emergency operations.
- **Medical & Biodefense Integration** — Hospital-grade containment, airflow, and biothreat mitigation within hardened structures.
- **Secure Project Management** — Multidisciplinary coordination for mission-critical infrastructure protection.

## Differentiators

- **Elite Provenance:** Sister company to **SAFE**, a global leader in sovereign-grade fortified architecture.
- **Women-Led, Science-Driven:** Directed by a nurse and biochemist specializing in biological and structural resilience.
- **WOSB Strategic Advantage:** Eligible for federal small-business and diversity set-asides.
- **Integrated NBCe Expertise:** Bridging medical, architectural, and operational protection disciplines.
- **Discretion & Continuity:** Proven confidentiality supporting high-security and classified projects.

## Past Performance

- **AERIE Project Design:** SCIF-grade, AI-integrated continuity facility with NBCe and robotic automation systems.

- **SAFE Projects (Global):** Hardened institutional and private infrastructure across the U.S., Europe, South America, and the Middle East.
- **Medical Containment Projects:** Design consultation on pandemic resilience and airborne biothreat architecture.

## Summary

<b>NAICS Codes</b>	236220 • 541330 • 541620 • 541690 • 561621
<b>Legal Structure:</b>	S-Corporation
<b>State of Incorporation</b>	Maryland
<b>WOSB Certification</b>	In Progress
<b>UEI / CAGE:</b>	Pending
